Objective

Full-Stack Developer with **1+ year of experience** building responsive web applications and scalable backend APIs using the **MERN stack**. Skilled in **React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL**, with hands-on experience developing production-ready features, REST APIs, and end-to-end web solutions. Passionate about developing high-performance applications and contributing to innovative engineering teams.

Experience

Full-stack Developer, *Techpixe*

01/2026 – 05/2026

- Engineered scalable full-stack e-commerce applications using **React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, JavaScript, and Tailwind CSS**.
- Architected and integrated **robust RESTful APIs** to manage **authentication**, product catalogs, cart functionality, checkout processes, order management, and payment workflows.
- Designed and optimized **MongoDB and PostgreSQL** database schemas to enhance data storage efficiency, indexing, and query performance.
- Built reusable React components and managed application state using **Redux Toolkit and React Hooks** (useState, useEffect, useContext) improving scalability, maintainability, and frontend performance.
- Integrated **JWT-based authentication** by implementing secure user login, protected routes, and authenticated API communication.
- Delivered production-ready features focused on performance optimization, scalability, and adherence to high code quality standards

Full-stack Developer, *Prosper Overseas*

07/2025 – 12/2025

- Developed dynamic, responsive user interfaces leveraging **React, React Hooks, and Tailwind CSS** for enhanced user experience.
- Designed and implemented scalable RESTful APIs using **Node.js and Express.js** to support core application functionalities.
- Managed data operations and schema design in **MongoDB** to ensure efficient **CRUD functionality** and data integrity.
- Translated Figma design prototypes into **pixel-perfect, mobile-responsive** UI components consistent with design specifications.
- Diagnosed and **resolved UI bugs** while optimizing rendering performance for cross-browser compatibility and faster load times.

Full-stack Developer, *SpriteEra IT Solutions*

10/2024 – 01/2025

- Managed application state using **React Hooks (useState, useEffect, useContext, useReducer)** ensuring reusable components and seamless user interactions.
- Integrated RESTful APIs to enable seamless **frontend-backend communication**, delivering dynamic, real-time user experiences across the application.
- Developed scalable backend services using **Node.js and Express.js**, designing RESTful APIs with clean architecture and maintainable code practices.
- Implemented **JWT-based authentication** and role-based authorization to secure APIs, protect user data, and manage application access efficiently.

Technical Skills

Frontend

HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap

Backend

Node.js, Express.js, RESTful APIs, JWT Authentication

Databases & ORMs

PostgreSQL, MongoDB, Supabase, Prisma ORM, Drizzle ORM, Mongoose

Tools & Platforms

Git, GitHub, VS Code, Postman, Netlify, Render, Vercel

Projects

Kings Aura, E-Commerce Web Application

- **Live:** <https://thekingsaura.com>
- Built a **production-ready full-stack e-commerce platform** using **React.js, Node.js, Express.js, MongoDB, PostgreSQL, Redux Toolkit, and Tailwind CSS**.
- Engineered **RESTful APIs** for authentication, product catalog, cart, checkout, order management, and payment workflows.
- Designed reusable, responsive React components and optimized application state using **Redux Toolkit**.
- Developed secure backend services with **MongoDB and PostgreSQL**, implementing efficient CRUD operations and seamless frontend-backend integration.

Mini CRM Opportunity Tracker, Full-Stack Web Application

- **Live:** <https://ceofactory-crm.vercel.app/> 
- Built a **production-ready CRM application** using **React.js, Node.js, Express.js, MongoDB, Tailwind CSS, and JWT** for secure opportunity management.
- Developed **RESTful APIs** with JWT authentication, bcrypt password hashing, owner-based authorization, and complete CRUD operations for managing sales opportunities.
- Implemented **search, filtering, sorting, and pagination** to efficiently manage opportunities while improving application usability and performance.
- Built responsive React interfaces with **Context API**, React Router, Axios, and reusable components, ensuring seamless frontend-backend integration.
- Deployed the application on **Vercel** and **Render**, integrating **MongoDB Atlas** for secure cloud database management.

Twitter Clone, Full Stack Web Application

- **Live:** <https://twitter-clone-ocp4.onrender.com>
- Developed a full-stack Twitter clone using **React, Node.js, Express, and MongoDB**.
- Implemented **JWT authentication**, user registration/login, tweet creation, and feed display.
- Built responsive UI with **Tailwind CSS, React Router**, and efficient data loading using **React Query**.

Educational Qualification

B.Sc (MPCS), Kakatiya University

CGPA: 7.2

Intermediate (MPC), Srivedha College

Aggregate: 85.6%

Hanamkonda

SSC, SAVM

CGPA: 8.5

Mulugu
